

The Harmonic Balancer Puller is designed to pull balancers, vibration dampers, pulleys, and gears with tapped holes. The four slots in the yoke allows the tool to be used in both two- and three-hole applications.

- Fits most domestic and import vehicles
- Center screw designed with removable, floating swivel prevents damage to shaft ends
- Yoke is forged from high-grade, heat-treated alloy steel and zinc plated for long life
- Metric and SAE bolts included
