

Two heavy-duty filter pliers in one set!
For servicing and maintaining medium-duty and heavy-duty trucks (Class 7 and 8), as well as large generators, equipment, and machinery.

Set contains:

- Part #302 - Adjustable Oil Filter Pliers: Self-adjusting, spring action (NOT a slip joint) oil filter pliers allow for a full range of filter applications. Heavy-duty, forged construction with textured grip add both strength and leverage to the tool.
- Part #29900 - Truck & Tractor Oil Filter Pliers: Spring loaded, adjustable pliers. Heavy forged construction creates leverage for high torque applications. Can be used in one hand applications.

29200

Large and Small Oil Filter Plier Set
