

The Relay Circuit Pro tests an entire circuit, from the battery to the component in question, as well as determining if the relay itself is functioning properly. With the push of a button, the technician can instantly determine the problem with the circuit, without the use of a multi-meter.

- Works with both 12 and 24-volt systems
- Easily accessible ports for use with other diagnostic tools
- Patent pending

Package Type: Blow molded case

Dimensions: 14" x 11" x 4"

Warranty: 1 Year

UPC: 047084000762

Application:
12 and 24 volt systems
