

Head Bolt Remover

Save time and money when removing and installing head bolts on Ford 6.0L diesel engines. There is no longer a need to remove the cab, worry about the rear heat shield or to disturb the A/C system with the access you will gain with this adapter.

- Reduces the overall time to complete engine work related to removing and installing cylinder heads
- Get access to the cylinder head bolts without the need to remove the cab or dealing with freon recovery when removing the evaporator
- Eliminates potential of interference with the heat shield
- 3/4" Dr. female adapter with 1/2" Dr. male
