

NEW PRODUCT ANNOUNCEMENT

Part No. 7541

10mm Subaru® Hex Bit Socket

The cam sprocket bolts on Subaru® require more force than a 10mm Allen wrench is good for, and an impact bit doesn't provide much stability. Use this bit with a 1" socket or wrench for better torque and can be used with impact tools to make it even easier.

- 1" hex bit with internal 10mm hex bit designed to securely fit Subaru® hollow cam sprocket bolts
- More stable and safer than other options
- Impact-rated and black oxide finish
- A great companion tool to the Cal-Van 754 3-in-1 Cam Sprocket Tool

Package Type: Sliding Blister and Card

Dimensions: 2.67" x 4.65" x 1.6"

Warranty: Limited Lifetime Against Defects

UPC: 047084075418

Applications:

Subaru models with a hollow cam sprocket bolt, model years from approximately 2002 to present.
