

DROP AND DRIVE

Presenting the patented magnetic bit driver with a guide that retracts and extends on its own every time, unlike any driver on the market!

For use anywhere, inside and out, from putting up drywall and cement board to hanging sheathing or installing decking.

Reloads faster, drop the fastener in and drive it.

FEATURES:

- Spring-loaded bit adapter that guides as it drives
- Guide will not only retract but will also extend back
- Guide locks to easily interchange bits
- Internal magnet holds bits in place
- For use with power tools including impact drivers
- Accepts existing, common 1/4" hex bits
- Backed by a limited lifetime warranty
- Use with these types of fasteners and more
