

The tie rod end tool is designed to force out tie rod ends from spindles and steering arm on virtually all domestic and import cars with tie rod screw diameter up to 3/4". Comes with a swivel head cup style end that removes the chance of damage and frustration caused by other less effective methods like hammering.

- Force out tie rod ends from spindles with tie rod screw diameter up to 3/4"
- Forces steering arms on virtually all domestic and import cars
- Opens to 1-5/8"
