

The Fuel Pump Lock Ring Tool is designed to quickly remove and install fuel tank lock rings when servicing fuel pump or fuel sending unit replacement. Universal design fits to any 7.25" O.D. metal or plastic lock rings found on Ford®, Chrysler® and GM® vehicles.

- Unique design fits on multiple makes and models of fuel tank lock rings
- Allow for greater clearance on the top of fuel sending units than other versions
- Easily attach 1/2" drive ratchet or breaker bar
- Professional grade steel with black oxide finish to resist rust and corrosion

Package Type: Box with label
